

Jesse Gray Primary

Peer on Peer Abuse Policy

[including guidance section for practitioners based on KCSiE Sept 19]

Review/update October 2019

Guidance - p.2 to p.7

What is Peer on Peer Abuse?

All children are capable of abusing their peers. This can manifest itself in a whole spectrum of behaviours including:-

- Bullying including cyberbullying
- **Sexual violence and harassment**
- **Physical abuse**
- **Sexting**
- **Initiation /hazing type violence and rituals**

- Upskirting [new **KCSiE Sept 2019** now a criminal offence and has reporting requirements)

All schools need to include peer on peer abuse in their schools' policies and procedures and all staff need to be aware of these and ensure they are part of their practice.

These should include

- **Procedures to minimise the risk of peer on peer abuse**
- **How allegations are recorded, investigated and dealt with**
- **Clear processes as to how victims, perpetrators and any other children affected will be supported**
- **Recognition of the gendered nature of peer on peer abuse but recognising that all forms of this behaviour is unacceptable and will be taken seriously**

It is important that schools see this guidance and model template as a framework that will need to be adapted to fit the age and developmental stage and understanding of their pupil group.

Additional areas for consideration can be found in Sexual Violence and Sexual Harassment between Children in Schools and Colleges guidance 2018)

www.gov.uk/government/publications/sexual-violence-and-sexual-harassment-between-children-in-schools-and-colleges

Keeping Children Safe in Education 2018 www.gov.uk/government/publications/keeping-children-safe-in-education--2

A Whole School Policy

While schools cover many aspects of peer on peer abuse in other policies such as the whole school behaviour policy , the anti-bullying policy and the online safety policy (cyberbullying and sexting) schools need to be clear about their strategies around wider behaviours including sexist and sexual bullying, sexual harassment, sexual violence.

Some useful definitions

Sexual Harassment

This can be defined as 'unwanted conduct of a sexual nature' that can occur online and offline. In the context of this guidance this means in the context of child on child sexual harassment. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

It can include

- Sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names;
- Sexual "jokes" or taunting;

Upskirting

Upskirting

'Upskirting' typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is now a criminal offence. KCSiE Part 1p. 26 September 2019

New criminal offence of "upskirting" added to schools safeguarding guidance from September 2019. Keeping Children Safe in Education: revised statutory guidance is expected to be in place from 2 September 2019. "Upskirting" became a specific criminal offence under the Voyeurism (Offences) Act 2019 on 12 April 2019.

Sexual Violence

In this guidance this refers to sexual violence in the context of child on child sexual violence. Children can and do abuse other children. Sexual violence covers a spectrum of behaviour. It can refer to sexual offences under the Sexual Offences Act 2013. This includes:-

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

Consent

Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.

It is important to know that:-

- A child under the age of 13 can never consent to any sexual activity;

- The age of consent is 16;
- Sexual intercourse without consent is rape.

It is also important to differentiate between consensual sexual activity between children of a similar age and that which involves any power imbalance, coercion or exploitation. Due to their additional training, the designated safeguarding lead (or deputy) should be involved and generally speaking leading the school or college response. If in any doubt, they should seek expert advice.

It is important that schools and colleges consider sexual harassment in broad terms. Sexual harassment (as set out above) creates an atmosphere that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence.

Addressing cultures of sexual harassment:

Schools often deliver this currently, through planned, high-quality, Relationship and Sex Education (RSE) and Personal, Social, Health and Economic (PSHE) education.

Harmful Sexual Behaviour (HSB)

Children's sexual behaviour exists on a wide continuum, from normal and developmentally expected to inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour is developmentally inappropriate and may cause developmental damage. A useful umbrella term is "harmful sexual behaviour". The term has been widely adopted in child protection and is used in this advice. Harmful sexual behaviour can occur online and/or offline and can also occur simultaneously between the two. Harmful sexual behaviour should be considered in a child protection context.

Useful guidance can be found in:-

NSPCC and Research in Practice's Harmful Sexual Behaviour Framework:

www.nspcc.org.uk/globalassets/documents/publications/harmful-sexual-behaviour-framework.pdf

The Brook Sexual Behaviours Traffic Light Tool can also be very helpful in identifying sexual behaviours by children

www.brook.org.uk/our-work/the-sexual-behaviours-traffic-light-tool

Contextual Safeguarding

All staff, but especially the designated safeguarding lead (or deputy) should be considering the context within which incidents and/or behaviours occur. This is known as contextual safeguarding, which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare.

Additional considerations for schools

When considering harmful sexual behaviour, ages and the stages of development of the children are critical factors to consider. Sexual behaviour between children can be considered harmful if one of the children is much older, particularly if there is more than two years' difference or if one of the children is pre-pubescent and the other is not.

However, a younger child can abuse an older child, particularly if they have power over them, for example, if the older child is disabled or smaller in stature. Schools and colleges should ensure that their response

to sexual violence and sexual harassment between children of the same sex is equally robust as it is for sexual violence and sexual harassment between children of the opposite sex.

Prevention

As well as having strategies for dealing with incidents schools and colleges should consider what they can do to foster healthy and respectful relationships between boys and girls including through Relationship and Sex Education and Personal Social Health and Economic education.

The most effective preventative education programme will be through a whole-school approach that prepares pupils for life in modern Britain. The school will have a clear set of values and standards, and these will be upheld and demonstrated throughout all aspects of school life. This will be underpinned by the school's behaviour policy and pastoral support system, and by a planned programme of evidence-based content delivered through the whole curriculum. Such a programme should be developed to be age and stage of development appropriate (especially when considering SEND children and their cognitive understanding), and may tackle such issues as:

- **Healthy and respectful relationships**
- **What respectful behaviour looks like**
- **Consent**
- **Gender roles, stereotyping, and equality**
- **Body confidence and self-esteem**
- **Prejudiced behaviour**
- **That sexual violence and sexual harassment is always wrong; and**
- **Addressing cultures of sexual harassment.**

Schools often deliver this currently, through planned, high-quality, Sex and Relationship Education (SRE) and Personal, Social, Health and Economic (PSHE) education.

Schools in Nottinghamshire will find support and resources to support the development of these topics from the Tackling Emerging Threats to Children Team and the TETC pages of the Nottinghamshire School's Portal.

Jesse Gray Primary School

Peer on Peer abuse, sexual harassment and violence policy

September 2019

Introduction

Our school Jesse Gray Primary recognises that children are vulnerable to and capable of abusing their peers. We take such abuse as seriously as abuse perpetrated by an adult. This includes verbal as well as physical abuse. Peer on peer abuse will not be tolerated or passed off as part of “banter” or “growing up”.

We are committed to a whole school approach to ensure the prevention, early identification and appropriate management of peer on peer abuse within our school and beyond.

In cases where peer on peer abuse is identified we will follow our child protection procedures, taking a contextual approach to support all children and young people who have been affected by the situation.

We recognise that peer on peer abuse can manifest itself in many ways such as:

- **Child Sexual Exploitation**
- **Sexting or youth produced digital imagery**
- **Bullying**
- **Radicalisation**
- **Abuse in intimate relationships**
- **Children who display sexually harmful behaviour**
- **Gang association and serious violence (County Lines)**
- **Technology can be used by for bullying and other abusive behaviour**

Some of these behaviours will need to be handled with reference to other policies in school such as the behaviour policy, anti- bullying policy, child protection policy and online safety policy.

This policy concentrates on peer on peer abuse in the context of sexual harassment and sexual violence. It is compliant with the statutory guidance on peer-on-peer abuse as set out in Keeping Children Safe in Education (September 2018) and should be read in conjunction with the Local Safeguarding Children Board's (LSCB) Safeguarding Policy and Procedures, and any relevant Practice Guidance issued by it.

Policy Development

The policy has been developed in consultation with the following groups : **Senior leaders, governors, staff.**

Aims

The policy will:-

- **Set out our strategies for preventing, identifying and managing peer on peer abuse**
- **Take a contextual approach to safeguarding all children and young people involved. Acknowledging that children who have allegedly abused their peers or displayed harmful sexual behaviour are themselves vulnerable and may have been abused by peer, parents or adults in the community.**

Understanding Peer on Peer abuse

Sexual violence and sexual harassment can occur between two children of any age and sex or a group of children sexually assaulting or sexually harassing a single child or group of children.

The impact of this behaviour on children can be very distressing and have an impact on academic achievement and emotional health and wellbeing.

Sexual harassment and sexual violence may also occur online and offline.

The Context

All behaviour takes place on a spectrum. Understanding where a child's behaviour falls on a spectrum is essential to being able to respond appropriately to it.

In this policy we recognise the importance of distinguishing between problematic and abusive sexual behaviour (Harmful sexual Behaviour HSB).

We are adopting the NSPCC definition of HSB as:-

"Sexual behaviours expressed by children...that are developmentally inappropriate, may be harmful towards self or others, or be abusive towards another child...or adult."

Also useful is Simon Hackett's continuum model to demonstrate the range of sexual behaviours in the appendix . See also the Brook Traffic lights (in appendix)

Vulnerable groups

We recognise that all children can be at risk however we acknowledge that some groups are more vulnerable. This can include: experience of abuse within their family; living with domestic violence young people in care; children who go missing; children with additional needs (SEN and/or disabilities). Children who identify or are perceived as LGBT, race, religion (protected characteristics).

Whist research tells us girls are more frequently identified as being abused by their peers and, girls are more likely to experience unwanted sexual touching in schools this is not confined to girls.

Boys are less likely to report intimate relationship abuse and may display other behaviour such as antisocial behaviour. Boys report high levels of victimisation in areas where they are affected by gangs. We recognise that both boys and girls experience peer on peer abuse but they do so in gendered ways

All staff should be aware of indicators, which may signal that children are at risk from, or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs.

Responding to Alleged Incidents Responding to reports of sexual violence and sexual harassment

All reports of peer on peer abuse will be made on a case by case basis with the designated safeguarding lead or their deputy taking a leading role using their professional judgement and supported by other agencies such as social care or the police as required.

The immediate response to a report

- The school or college will take all reports seriously and will reassure the victim that they will be supported and kept safe.
- All staff will be trained to manage a report.
- Staff will not promise confidentiality as the concern will need to be shared further (for example, with the designated safeguarding lead or social care) staff will however only share the report with those people who are necessary to progress it.
- A written report will be made as soon after the interview as possible recording the facts as presented by the child. These may be used as part of a statutory assessment if the case is escalated later.
- Where the report includes an online element the school or college will follow advice on searching, screening and confiscation. The staff will not view or forward images unless unavoidable and only if another member of staff (preferably the DSL) is present.
- The DSL will be informed as soon as possible.

Risk Assessment

When there has been a report of sexual violence, the designated safeguarding lead (or a deputy) will make an immediate risk and needs assessment. Where there has been a report of sexual harassment, the need for a risk assessment should be considered on a case-by-case basis. The risk and needs assessment should consider:

- **The victim, especially their protection and support;**
- **The alleged perpetrator; and**
- **All the other children (and, if appropriate, adult students and staff) at the school or college, especially any actions that are appropriate to protect them;**

Risk assessments will be recorded [using proforma in Appendix below] electronically held on / filed in Senior DSL's laptop and in paper copy in Child Protection File 4] and be kept under review.

The designated safeguarding lead (or a deputy) will ensure they are engaging with MASH.

Action following a report of sexual violence and/or sexual harassment

Following an incident we will consider:

- **The wishes of the victim in terms of how they want to proceed. This is especially important in the context of sexual violence and sexual harassment;**
- **The nature of the alleged incident(s), including: whether a crime may have been committed and consideration of harmful sexual behaviour;**
- **The ages of the children involved;**
- **The developmental stages of the children involved;**
- **Any power imbalance between the children. For example, is the alleged perpetrator significantly older, more mature or more confident? Does the victim have a disability or learning difficulty?**
- **If the alleged incident is a one-off or a sustained pattern of abuse;**
- **Are there ongoing risks to the victim, other children, adult students or school or college staff; and other related issues and wider context?**

Follow up Actions

Children sharing a classroom:

Whilst the school or college establishes the facts of the case and starts the process of liaising with children's social care and the police:

- The perpetrator will be removed from any classes they share with the victim.
- We will consider how best to keep the victim and alleged perpetrator a reasonable distance apart on school or college premises and on transport to and from the school or college.

These actions are in the best interests of both children and should not be perceived to be a judgment on the guilt of the alleged perpetrator.

Options to manage the report

Manage internally

1. In some cases of sexual harassment, for example, one-off incidents, we may decide that the children concerned are not in need of early help or statutory intervention and that it would be appropriate to handle the incident internally, perhaps through utilising the behaviour and bullying policies and by providing pastoral support from trained ELSA support assistants.

This decision will be made based on the principle that sexual violence and sexual harassment is never acceptable and will not be tolerated. All decisions, and discussions around making these decisions will be recorded and stored **by Senior DSL in Peer on Peer section of confidential child protection file 4**

2. In line with 1 above, we may decide that the children involved do not require statutory interventions, but may benefit from early help. Early help means providing support as soon as a problem emerges, at any point in a child's life. Providing early help is more effective in promoting the welfare of children than reacting later. Early help can be particularly useful to address non-violent harmful sexual behaviour and may prevent escalation of sexual violence.

3. Where a child has been harmed, is at risk of harm, or is in immediate danger, we will make a referral to the MASH following locally agreed protocols.

Where statutory assessments are appropriate, the designated safeguarding lead or a deputy will be working alongside, and cooperating with, the relevant lead social worker. Collaborative working will help ensure the best possible package of coordinated support is implemented for the victim and, where appropriate, the alleged perpetrator and any other children that require support.

Reporting to the Police

Any report to the police will generally be made through the MASH (as above). The designated safeguarding lead (and their deputies) will follow local process for referrals.

Where a report of rape, assault by penetration or sexual assault is made, the starting point is this will be passed on to the police. Whilst the age of criminal responsibility is ten, if the alleged perpetrator is under ten, the starting principle of reporting to the police remains. The police will take a welfare, rather than a criminal justice, approach.

Where a report has been made to the police, the school or college will consult the police and agree what information can be disclosed to staff and others, in particular, the alleged perpetrator and their parents or carers. They will also discuss the best way to protect the victim and their anonymity.

Where there is a criminal investigation we will work closely with the relevant agencies to support all children involved (especially potential witnesses). Where required, advice from the police will be sought in order to help us

Whilst protecting children and/or taking any disciplinary measures against the alleged perpetrator, we will work closely with the police (and other agencies as required), to ensure any actions the school or college take do not jeopardise the police investigation.

The end of the criminal process

If a child is convicted or receives a caution for a sexual offence, the school / academy will update its risk assessment, ensure relevant protections are in place for all children. We will consider any suitable action in light of our behaviour policy. If the perpetrator remains in school/academy we will be very clear as to our expectations regarding the perpetrator now they have been convicted or cautioned. This could include expectations regarding their behaviour and any restrictions we think are reasonable and proportionate with regard to the perpetrator's timetable.

Any conviction (even with legal anonymity reporting restrictions) is potentially going to generate interest among other pupils or students in the school or college.

We will ensure all children involved are protected, especially from any bullying or harassment (including online).

Where cases are classified as “no further action” (NFA'd) by the police or Crown Prosecution Service, or where there is a not guilty verdict, we will continue to offer support to the victim and the alleged perpetrator for as long as is necessary. A not guilty verdict or a decision not to progress with their case will likely be traumatic for the victim. The fact that an allegation cannot be substantiated does not necessarily mean that it was unfounded. We will continue to support all parties in this instance.

Support for Children Affected by Sexual-Assault

Support for victims of sexual assault is available from a variety of agencies (see Appendix).

We will support the victim of sexual assault to remain in school but if they are unable to do so we will enable them to continue their education elsewhere. This decision will be made only at the request of the child and their family.

If they are moved we will ensure the new school is aware of the ongoing support they may need. The DSL will support this move.

Where there is a criminal investigation the alleged perpetrator will be removed from any shared classes with the victim and we will also consider how best to keep them a reasonable distance apart on the school premises or on school transport. This is in the best interest of the children concerned and should not be perceived to be a judgement of guilt before any legal proceedings. We will work closely with the police.

Where a criminal investigation into a rape or assault by penetration leads to a conviction or caution, we may take suitable action, if we have not already done so. In all but the most exceptional of circumstances, the rape or assault is likely to constitute a serious breach of discipline and lead to the view that allowing the perpetrator to remain in the same school or college would seriously harm the education or welfare of the victim (and potentially other pupils or students).

Where a criminal investigation into sexual assault leads to a conviction or caution, we may, if it has not already, consider any suitable sanctions in light of their behaviour policy, including consideration of permanent exclusion.

Where the perpetrator is going to remain at the school or college, the principle would be to continue keeping the victim and perpetrator in separate classes and continue to consider the most appropriate way to manage potential contact on school and college premises and transport. The nature of the conviction or caution and wishes of the victim will be especially important in determining how to proceed in such cases.

Reports of sexual assault and sexual harassment will, in some cases, not lead to a report to the police (for a variety of reasons). In some cases, rape, assault by penetration, sexual assault or sexual harassment are reported to the police and the case is not progressed or are reported to the police and ultimately result in a not guilty verdict. None of this means the offence did not happen or that the victim lied. The process will have affected both victim and alleged perpetrator. Appropriate support will be provided to both as required and consideration given to sharing classes and potential contact as required on a case-by-case basis.

All of the above should be considered with the needs and wishes of the victim at the heart of the process (supported by parents and carers as required). Any arrangements should be kept under review.

Physical Abuse

While a clear focus of peer on peer abuse is around sexual abuse and harassment, physical assaults and initiation violence and rituals from pupils to pupils can also be abusive.

These are equally not tolerated and if it is believed that a crime has been committed, will be reported to the police.

The principles from the anti-bullying policy will be applied in these cases, with recognition that any police investigation will need to take priority.

When dealing with other alleged behaviour which involves reports of, for example, emotional and/or physical abuse, staff can draw on aspects of Hackett's continuum (Appendix 1) to assess where the alleged behaviour falls on a spectrum and to decide how to respond. This could include, for example, whether it:

- is socially acceptable
- involves a single incident or has occurred over a period of time
- is socially acceptable within the peer group
- is problematic and concerning
- involves any overt elements of victimisation or discrimination e.g. related to race, gender, sexual orientation, physical, emotional, or intellectual vulnerability
- involves an element of coercion or pre-planning
- involves a power imbalance between the child/children allegedly responsible for the behaviour
- involves a misuse of power

Online Behaviour

Many forms of peer on peer abuse have an element of online behaviour including behaviours such as cyberbullying and sexting.

Policies and procedures concerning this type of behaviour can be found (**anti bullying policy, online safety policy, and child protection policy**)

Prevention

Our school , Jesse Gray actively seeks to raise awareness of and prevent all forms of peer-on-peer abuse by:

- Educating all Governors, Senior Leadership Team, staff and volunteers, [pupils/students], and parents about this issue. This will include training all Governors, Senior Leadership Team, staff and volunteers on the nature, prevalence and effect of peer-on-peer abuse, and how to prevent, identify and respond to it. This includes

(a) Contextual Safeguarding;

(b) The identification and classification of specific behaviours; and

(c) The importance of taking seriously all forms of peer-on-peer abuse (no matter how low level they may appear) and ensuring that no form of peer-on-peer abuse is ever dismissed as horseplay or teasing.

- Educating children about the nature and prevalence of peer-on-peer abuse via PSHE and the wider curriculum.
- Pupils/Students are frequently told what to do if they witness or experience such abuse, the effect that it can have on those who experience it and the possible reasons for it, including vulnerability of those who inflict such abuse.
- They are regularly informed about the School's approach to such issues, including its zero tolerance policy towards all forms of peer-on-peer abuse.
- Engaging parents on this issue by:

(a) Talking about it with parents, both in groups and one to one;

(b) Asking parents what they perceive to be the risks facing their child and how they would like to see the School address those risks;

(c) Involving parents in the review of School policies and lesson plans; and

(d) Encouraging parents to hold the School to account on this issue.

- Ensuring that all peer-on-peer abuse issues are fed back to the School's safeguarding [team/lead] so that they can spot and address any concerning trends and identify [pupils/students] who maybe in need of additional support. [This is done by way of a weekly staff meeting at which all concerns about [pupils/students] (including peer-on-peer abuse issues) are discussed];

- Challenging the attitudes that underlie such abuse (both inside and outside the classroom);

- Working with Governors, Senior Leadership Team, all staff and volunteers, [pupils/students] and parents to address equality issues, to promote positive values, and to encourage a culture of tolerance and respect amongst all members of the School community;

- Creating conditions in which our [pupils/students] can aspire to and realise safe and healthy relationships;

- **Creating a culture in which our [pupils/students] feel able to share their concerns openly, in a non-judgmental environment, and have them listened to; and**
- **Responding to cases of peer-on-peer abuse promptly and appropriately.**

Multi-agency working

The School actively engages with its local partners in relation to peer-on-peer abuse, and works closely with, Nottinghamshire, LSCB, Nottinghamshire MASH, children's social care, and/or other relevant agencies, and other schools.

The relationships the School has built with these partners are essential to ensuring that the School is able to prevent, identify early and appropriately handle cases of peer-on-peer abuse. They help the School

(a) To develop a good awareness and understanding of the different referral pathways that operate in its local area, as well as the preventative and support services which exist;

(b) To ensure that our [pupils/students] are able to access the range of services and support they need quickly;

(c) To support and help inform our local community's response to peer-on-peer abuse; (d) to increase our awareness and understanding of any concerning trends and emerging risks in our local area to enable us to take preventative action to minimise the risk of these being experienced by our [pupils/students].

The School actively refers concerns/allegations of peer-on-peer abuse where necessary to

Nottinghamshire MASH (or equivalent)], children's social care, and/or other relevant agencies.

This updated policy discussed/ratified by FGB on 2/12/19, will be reviewed annually alongside Child Protection Policy in Autumn Term.

Appendix

1. Simon Hackett (2010) has proposed a continuum model to demonstrate the range of sexual behaviours presented by children and young people, from those that are normal, to those that are highly deviant:

| Normal | Inappropriate | Problematic | Abusive | Violent |
|--------------------------------|--|---|--|--|
| Developmentally expected | • Single instances of inappropriate sexual behaviour | • Problematic and concerning behaviours | • Victimising intent or outcome | • Physically violent sexual abuse |
| Socially acceptable | • Socially acceptable behaviour within peer group | • Developmentally unusual and socially unexpected | • Includes misuse of power | • Highly intrusive |
| Consensual, mutual, reciprocal | • Context for behaviour may be inappropriate | • No overt elements of victimisation | • Coercion and force to ensure victim compliance | • Instrumental violence which is physiologically and/or sexually arousing to the perpetrator |
| Shared decision making | • Generally consensual and reciprocal | • Consent issues may be unclear | • Intrusive | • Sadism |
| | | • May lack reciprocity or equal power | • Informed consent lacking, or not able to be freely given by victim | |
| | | • May include levels of compulsivity | • May include elements of expressive violence | |

<https://www.nspcc.org.uk/globalassets/documents/publications/harmful-sexual-behaviour-framework.pdf>

2. Brook sexual behaviours traffic light tool

Behaviours: age 0 to 5

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability. They are reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours

- holding or playing with own genitals
- attempting to touch or curiosity about other children's genitals
- attempting to touch or curiosity about breasts, bottoms or genitals of adults
- games e.g. mummies and daddies,
- doctors and nurses
- enjoying nakedness
- interest in body parts and what they do
- curiosity about the differences between boys and girls

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours

- preoccupation with adult sexual behaviour
- pulling other children's pants down/skirts up/trousers down against their will
- talking about sex using adult slang
-
- preoccupation with touching the genitals of other people
- following others into toilets or changing rooms to look at them or touch them
- talking about sexual activities seen on TV/online

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental, or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for immediate intervention and action.

Red behaviours

- persistently touching the genitals of other children
- persistent attempts to touch the genitals of adults
- simulation of sexual activity in play
- sexual behaviour between young children involving penetration with objects
- forcing other children to engage in sexual play

Behaviours: age 5 to 9 and 9 to 13

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability and reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours 5-9

- feeling and touching own genitals
- curiosity about other children's genitals
- curiosity about sex and relationships, e.g. differences between boys and girls, how sex happens, where babies come from, same-sex relationships
- sense of privacy about bodies
- telling stories or asking questions using swear and slang words for parts of the body

Green behaviours 9-13

- solitary masturbation
- use of sexual language including swear and slang words
- having girl/boyfriends who are of the same, opposite or any gender
- interest in popular culture, e.g. fashion, music, media, online games, chatting online
- need for privacy
- consensual kissing, hugging, holding hands with peers

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours 5-9

- questions about sexual activity which persist or are repeated frequently, despite an answer having been given
- sexual bullying face to face or through texts or online messaging
- engaging in mutual masturbation
- persistent sexual images and ideas in talk, play and art
- use of adult slang language to discuss sex

Amber behaviours 9-13

- uncharacteristic and risk-related behaviour, e.g. sudden and/or provocative changes in dress, withdrawal from friends, mixing with new or older people, having more or less money than usual, going missing
- verbal, physical or cyber/virtual sexual bullying involving sexual aggression

- LGBT (lesbian, gay, bisexual, transgender) targeted bullying
- exhibitionism, e.g. flashing or mooning
- giving out contact details online
- viewing pornographic material
- worrying about being pregnant or having STIs

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for immediate intervention and action.

Red behaviours 5-9

- frequent masturbation in front of others
- sexual behaviour engaging significantly younger or less able children
- forcing other children to take part in
- sexual activities
- simulation of oral or penetrative sex
- sourcing pornographic material online

Red behaviours 9-13

- exposing genitals or masturbating in public
- distributing naked or sexually provocative images of self or others
- sexually explicit talk with younger children
- sexual harassment
- arranging to meet with an online acquaintance in secret
- genital injury to self or others
- forcing other children of same age, younger or less able to take part in sexual activities
- sexual activity e.g. oral sex or intercourse
- presence of sexually transmitted infection (STI)
- evidence of pregnancy

Behaviours: age 13 to 17

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability and reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours

- solitary masturbation
- sexually explicit conversations with peers
- obscenities and jokes within the current cultural norm
- interest in erotica/pornography
- use of internet/e-media to chat online
- having sexual or non-sexual relationships
- sexual activity including hugging, kissing, holding hands
- consenting oral and/or penetrative sex with others of the same or opposite gender who are of similar age and developmental ability
- choosing not to be sexually active

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours

- accessing exploitative or violent pornography
- uncharacteristic and risk-related behaviour, e.g. sudden and/or provocative changes in dress,
- withdrawal from friends, mixing with new or older people, having more or less money than usual, going missing
- concern about body image
- taking and sending naked or sexually provocative images of self or others
- single occurrence of peeping, exposing, mooning or obscene gestures
- giving out contact details online
- joining adult- only social networking sites and giving false personal information
- arranging a face to face meeting with an online contact alone
- sexually aggressive/exploitative behaviour
- sexually explicit talk with younger children
- sexual harassment
- non-consensual sexual activity
- use of/ acceptance of power and control in sexual relationships
- genital injury to self or others
- sexual contact with others where there is a big difference in age or ability
- sexual activity with someone in authority and in a position of trust
- sexual activity with family members
- involvement in sexual exploitation and/or trafficking
- sexual contact with animals
- receipt of gifts or money in exchange for sex

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for

immediate intervention and action.

Red behaviours

- exposing genitals or masturbating in public
- preoccupation with sex, which interferes with daily function
- sexual degradation/humiliation of self or others
- attempting/forcing others to expose genitals

2. Support for Young People: Local and National

- Nottinghamshire Children and Young People's Independent Sexual Violence Advisors (ChiIVAs) provided by IMARA provide emotional and practical support for victims of sexual violence. They are based within the specialist sexual violence sector and will help the victim understand what their options are and how the criminal justice process works if they have reported or are considering reporting to the police. ChiSVAs will work in partnership with schools and colleges to ensure the best possible outcomes for the victim.

4. Peer on Peer Abuse Risk Assessment Proforma

Peer-on-peer sexual abuse: risk and needs assessment and version record

Use this template to help you assess risks to the children involved in an incident of peer-on-peer sexual abuse. This document can help you meet the recommendations set out in [paragraph 255 of Keeping Children Safe in Education](#).

We developed this template with Ann Marie Christian. Ann Marie is a safeguarding consultant who provides support for designated safeguarding leads. She has experience in frontline and managerial child protection matters.

Notes on using this template:

(1) We've used "Child A" and "Child B" to signify the children involved, rather than saying "victim" and "alleged perpetrator". This is because you should avoid assigning guilt until a formal investigation has been conducted by the appropriate authorities.

(2) Consider each question/consideration from the perspective of both pupils, and be sure to do this in collaboration with them. Also consider the impact on, and needs of, the wider school community, and record any concerns or actions in the most appropriate column.

(3) Work with your local multi-agency safeguarding hub (MASH) when conducting this risk assessment, and update it in response to any advice they provide. Some of the prompts may require input from other MASH agencies. Add specific questions and considerations based on the nature of each incident and on the advice provided.

(4) Keep track of the changes you make:

- Create a new copy of the document
- Update the version number at the top of the risk assessment
- Record what has changed in the update log (at the end of the document)
- Save the most recent version of the risk assessment in the appropriate places (for example, the child's safeguarding file)

(5) This should be a living document – you may need to update it as often as daily based on conversations with, and feedback from, the children and parents involved, feedback from staff, guidance from the MASH, or information from the police and children's social care.

Peer on Peer Abuse Incident

[NB save document proforma over next 3 pages on landscape orientated doc for extra space]

Outline time/date of incident and those involved

Risk assessment – version [number]

| AREA OF RISK | CONSIDERATIONS | CHILD 'A' | CHILD 'B' | NOTES | ACTIONS |
|--|--|-----------|-----------|--|---------|
| <p>Details of the incident</p> <p>Record details of the incident from the point of view of both children</p> | <ul style="list-style-type: none"> • How serious is the incident? Was it a crime? • Do we need to make arrangements to limit contact between the children involved? (If the allegation relates to rape, assault by penetration, or sexual assault, the answer is automatically yes) • How did the school find out about it? Was it reported directly or by someone else with knowledge of the incident? | | | <p>Use this column to record additional information that may be relevant</p> <p>For example, previous, unrelated behaviour incidents</p> | |
| Social risks | <ul style="list-style-type: none"> • Do the children share a peer group? Are people in their friend group likely to take sides? • Do they both attend your school? • Do other people know about the incident? Do those people understand: <ul style="list-style-type: none"> ○ Who they can talk to if they have concerns about the people involved, or about their own safety and wellbeing ○ The importance of confidentiality ○ If, and how, they may need to be involved in any further investigations • Are they likely to be the subject of gossip, bullying or further harassment? • Have there been previous incidents of sexually inappropriate behaviour within their peer group(s)? • Do they risk being alienated from their friend group(s) as a result of this incident? | | | | |

| AREA OF RISK | CONSIDERATIONS | CHILD 'A' | CHILD 'B' | NOTES | ACTIONS |
|---------------------|--|-----------|-----------|-------|---------|
| Physical risks | <ul style="list-style-type: none"> Do they feel, or continue to feel, physically threatened by the other child? Do you have reason to believe they pose a continued risk to the safety and wellbeing of the victim, or other pupils and staff? Are they at risk of physical harm as a result of this incident (for example, bullying or 'retribution' by peers) Do they share classes/break times/etc.? Are they likely to come into contact with each other (or anyone else involved in/with knowledge of the incident) outside of school? How can such contact be limited? | | | | |
| Environmental risks | <ul style="list-style-type: none"> Do they live in a home where violence or abuse has occurred? Do they live in/near an area or location known to police to be high risk for sexual harassment or assault? Are they active on social media? If so, how? Do they know how to protect themselves from online grooming? What activities do they take part in outside of school? Are parents clear about: <ul style="list-style-type: none"> How the school (and partner agencies) are handling the incident Confidentiality The conduct expected of them while an investigation is ongoing | | | | |
| | | | | | |

| DATE | UPDATES MADE | REASONS FOR UPDATES | UPDATES MADE BY |
